EDUCATION

University College London — London, UK

MSc Finance (predicted Merit) — Sep 2025 - Sep 2026

- Key modules: Fixed Income, Hedge Fund Strategies, Corporate Issuers and Equity Valuation, Financial Statement Analysis, Valuation
- Final project: independent equity research initiation of coverage on Ferrari N.V. (RACE.MI)

Queen Mary University of London — London, UK

BEng Mechanical Engineering (First Class with Honours) — Sep 2021 - Jun 2025

- Relevant modules: Computational & Mathematical Modelling, Numerical Methods & Data Science, Control System Analysis & Design
- Dissertation: Design and Optimisation of a Formula Student Suspension Upright (awarded 78.3%) - achieved a 20.01% weight reduction through material selection, FEA and topology optimisation, maintaining a 4.72 safety factor

WORK EXPERIENCE

MMTT Trading LLC — Dubai, UAE

Financial Analyst, Import & Export Trading (Part-time) — Jun 2022 - Present

- Analysed pricing, margins and cost structures across AED 20m of annual textile import/export flows, identifying inefficiencies that strengthened gross margins
- Built Excel models tracking shipment-level pricing, costs and cash flows across the trade cycle, accelerating reporting turnaround for pricing decisions
- Collaborated with senior management to renegotiate supplier terms and streamline operating costs across the trade cycle
- Coordinated with sales, logistics and finance teams to resolve pricing and settlement issues on 10-15 shipments annually, reducing settlement delays

Private Investor — Dubai, UAE

Investment Analyst, Real Estate Portfolio (Part-time) — Jun 2022 - Present

- Worked directly with the principal to manage a nine-property real estate portfolio valued in the high eight figures (AED), overseeing rental agreements, cash flow and performance across the asset base
- Conducted market research and comparable valuation analysis to underwrite 4 prospective acquisitions, supporting an 80% rise in portfolio value alongside favourable market conditions
- Negotiated 32 lease renewals, sustaining 96% occupancy across completed properties (4 units awaiting delivery)
- Collaborated with legal, banking and property-management partners to streamline leasing and payment processes, reducing rent arrears

PROJECTS & EXTRACURRICULARS

Ferrari N.V. (RACE.MI) - Equity Research, Initiation of Coverage — Aug 2026

- Built a 24-sheet operating and valuation model to initiate coverage, forecasting revenue, EBITDA and unlevered free cash flow to FY2035
- Issued a HOLD at a €325.32 target vs a €318.85 market price, stress-testing WACC (5.84%) and terminal growth (2.50%) across a €236-€566 valuation range

Macroeconomic Research - New Zealand Inflation Targeting — May 2026

- Compared inflation, inflation expectations, unemployment and GDP around New Zealand's 1989-92 adoption of formal inflation targeting, the first such regime worldwide
- Tested whether central-bank credibility lowered the output cost of disinflation, weighing the disinflation achieved against growth and employment sacrificed

Diageo plc - Pre-Acquisition Financial Statement Analysis — Dec 2025

- Analysed five years of Diageo's margins, ROIC, leverage and cash conversion ahead of a potential transaction
- Reviewed accounting policies and normalised the statements to test the quality of reported earnings and build a comparable view of underlying performance

HSBC Regulatory Capital Bond & Spread Analysis — Nov 2025

- Analysed HSBC AT1 and Tier 2 regulatory capital bonds, calculating yield to maturity and multiple spread measures relative to the underlying yield curve
- Built discount-factor and cash-flow models with callable features and coupon resets, linking capital-structure seniority, duration and loss absorption to observed spreads

UCL School of Management Run Club - Founder — Dec 2025 - Sep 2026

- Founded and grew the club to over 100 members, building a core of 20+ weekly regulars through consistent scheduling and community engagement

CERTIFICATES / AWARDS & PROFESSIONAL TRAINING

- Financial Modeling & Valuation Analyst (FMVA®), Corporate Finance Institute (Oct 2026)
- JPMorgan Chase Investment Banking Job Simulation, Forage (Aug 2025)
- Bloomberg Financial Fundamentals (Aug 2025)
- CFA Institute Ethics Learning Lab: Ethical Decision Making (Aug 2025)
- IBM Enterprise Design Thinking Practitioner (Mar 2024)

SKILLS, LANGUAGES & INTERESTS

Technical: Advanced Excel & financial modelling, Bloomberg, PowerPoint, Python (Intermediate), MATLAB (Intermediate)
Languages: English (Fluent), Farsi (Native), Azeri (Native)
Interests: Running, motorsport, horology
